### Perkins engine line-up

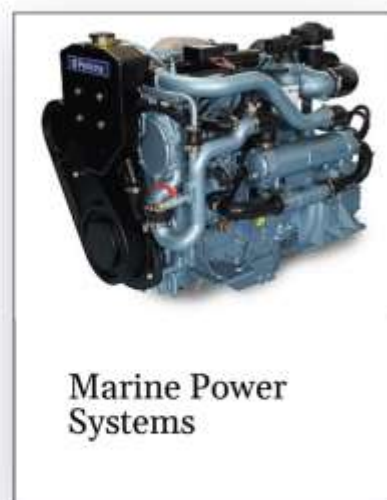

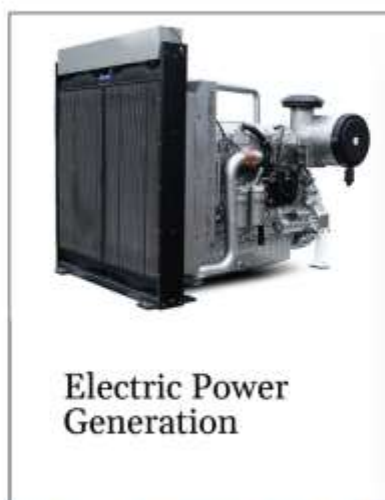

## Perkins Engines

For 90 years, Perkins has led the field in the design and manufacture of high performance diesel engines

With an engine range from .5 to 36 litres, Perkins engines power more than five thousand different applications throughout the world. And that's all thanks to our global network of manufacturing facilities that follow the same exacting process and quality standards at each and every location. But why does all of this matter?

Because wherever you are in the world you can be confident you're getting an engine built with your success in mind.
